

TRUKINETICS

Energetic Breaching - Level I

Training for Law Enforcement by Law Enforcement

Dates	October 5 - 8, 2026 0800-1800 hours
Location	Gila River Police Department 693 Seed Farm Rd Sacaton, Arizona
Cost	\$1,200 per student
Audience	Open to all law enforcement personnel assigned to a tactical team

Course Overview

This 40-hour certification course will focus on building the foundation of Energetic Breaching. With the emphasis on breaching in the search warrant and barricade environments, the student will develop the skills to conduct accurate target analysis, mission prep, charge selection, calculations, and construction. Students will learn to safely and efficiently breach a variety of exterior and interior doors as well as develop breaching protocols. This is not a theory based course, rather a hands-on, operational course preparing the student to step into the breacher role seamlessly. Each student will choose, construct and shoot multiple charges throughout this course.

All students must pass both written and practical-application tests to successfully complete the course. Students will complete this course ready to facilitate a variety of breaches in real-world missions.

Required Gear

- All necessary breaching gear and materials
- Notebook
- Body armor, helmet, eye/ear protection
- Cord and caps are provided by the hosting agency

Instructor Background

Instructors: Your TruKinetics instructors, Billy and Dave, have unmatched knowledge and operational breaching experience within domestic law enforcement. Their ability and passion to share this hard-earned knowledge makes them truly unique in the training community. Several assistant instructors will also be available to help facilitate this fast-paced, hands-on course, ensuring every student leaves with a comprehensive understanding of the material presented as well as the ability to perform as needed by their team.
