

TRUKINETICS

MAGNIFIED CARBINE

PRACTICAL USE OF THE LPVO

Training for Law Enforcement by Law Enforcement

Dates	November 30 – December 1, 2026 0800-1800 hours
Location	Gila River Police Department 1576 S Nelson Dr, Chandler, Arizona
Cost	\$550 per student
Audience	Open to all law enforcement personnel

Course Overview

This 20-hour course is catered to officers deploying carbines with low power variable optics (LPVO). Curriculum includes proper use of your reticle, understanding ballistics, working through the entire magnification abilities of your optic, and practical evolutions. Students will run their carbines from 5 to 600+ yards. Close range 1X shooting at speed, high angled shooting, unknown distance engagements, timed courses of fire at varying distances, and positive target ID / information gathering will be the focus of this course.

Required Gear

- Carbine with zeroed LPVO
- 3+ magazines
- 800+ rounds of practice ammunition
- 20 rounds of your duty ammunition
- Eye / ear protection
- Notebook

Instructor Background

Instructors: Your TruKinetics instructors, Brian and Chris, have exceptional knowledge and operational experience within the domestic law enforcement, military, and contracting world. Their ability and passion to share this hard-earned knowledge makes them truly unique in the training community. All TruKinetics instructors are dedicated to ensuring every student leaves with a comprehensive understanding of the material presented as well as the ability to perform as needed on demand.
